

Law Enforcement Academy Student Disclosure and Affirmation

Disclosure

Students are reminded that successful completion of the ACC Academy does not guarantee employment or P.O.S.T Certification. Agencies differ in their requirements and hiring procedures. Employers consider personal background history, physical fitness and other qualifiers.

Affirmation

- I understand that there are certain minimum standards relative to criminal or delinquent behavior, physical or mental attributes, and other emotional behaviors and habits that must be met for me to be employable in law enforcement. I understand if I am unable to meet these standards, completion of any law enforcement academy may not guarantee my employability. I fully accept the responsibility to identify employment standards set by individual law enforcement agencies.
- I understand that the Academy does not provide State Certification as a law enforcement officer. I am aware that in order to become state certified I must pass the State Standardized Certification Examination administered by the Colorado Attorney General’s Office and the P.O.S.T. Board after I graduate from the Academy.
