

**CERTIFICATE,  
CRIME ANALYSIS  
2006-2007**

Crime analysis is an up and coming field within law enforcement. It combines criminal behavior theory, research and data from police departments and high-level computers to map and analyze where crime occurs (or might occur in the future) and to identify, locate and ultimately apprehend criminals.

The Crime Analysis certificate enables professionals to obtain the sometimes overlooked, yet necessary skills to work successfully in this field. These courses will be held primarily at the University Center at Chaparral campus.
