# Introduction

The Office of Institutional Research (IR) at Arapahoe Community College will produce two reports (census and end of term) every semester, including Summer. The data for these reports will be extracted from our student information system, Banner/Operation Data Warehouse (ODS), at different times.

- Census report: The data freeze will be done 2 days after the census date (15 week census date for Spring and Fall and 8 week census date for Summer). The report will be generated 3 business days after the data freeze.
- End of term report: The data freeze will be done 2 days after the end of the term. The report will be generated 3 business days after the data freeze.

Read the notes for each table to understand the context of the report and know the data extraction time.

Data items were selected based on the frequency of report requests from different constituents and some best practices. If you have additional data requests or questions please contact the IR office directly.

Thank you.

# Student Enrollment

## Head Count

The number of students enrolled for credit into a countable class with each student counted only once during the reporting period. The count excludes all students enrolled into non-countable class and students who enrolled for non-credit—these are NCTI\* students, students who are auditing a class and students who dropped late for administrative reasons.

Student Head Count by Academic Term	FA 2013 (201420)	FA 2014 (201520)	FA 2015 (201620)	FA 2016 (201720)	FA 2017 (201820)
Unduplicated Head Count	9728	9246	9198	9224	9644

\* ACC's partnership with NCTI allows broadband cable industry employees to earn a career-related degree or certificate(s) at ACC; however, the courses are designated for NCTI affiliates and are not considered 'countable', for reporting purposes.

## Non-Countable (NC) Class

The number of students enrolled into a non-countable class with each student counted only once during the reporting period. The majority of these students are NCTI students.

Non-Countable Head Count by Academic Term	FA 2013 (201420)	FA 2014 (201520)	FA 2015 (201620)	FA 2016 (201720)	FA 2017 (201820)
Unduplicated NC Head Count	2062	171	163	155	159

## Full-Time Equivalent (FTE)

Full-time Equivalent or 'FTE' is a measure of students' academic enrollment activity and is calculated by dividing all countable credit hours by 30 credits. FTE of 1.0 is equivalent to a student enrolled full-time (30 credits completed in an academic year). In the table below, FTE for high school students is included in the main campus calculations but is also displayed as a separate category, for convenience. FTE for high school students is calculated as the sum of all countable credit hours of all high school students (all types, as shown in the Concurrent Enrollment section of this report) divided by 30 credits.

FTE by Campus	FA 2013 (201420)	FA 2014 (201520)	FA 2015 (201620)	FA 2016 (201720)	FA 2017 (201820)

# Student Enrollment Status

## Student Time Status

A full-time student is enrolled for 12 or more semester credits and students enrolled in less than 12 credit hours are classified as part-time. The table below displays the count of registered students in each category, including the breakdown of semester credits enrolled; percentage calculation is based on Fall 2017 counts.

# Enrolled Student Demographics

## Gender

Gender data is taken from the student self-reported information on admission application. IPEDS reporting requires that we assign unknown or non-reported gender as either male or female, we do so based on the student Social Security Number (SSN). If the SSN is odd, then the student is designated 'female', otherwise, they are designated 'male', again, only for IPEDS reporting purposes. If the student has no SSN then we apply the same rule to the student ID number (S#). The table below displays the count of registered students in each category; percentage calculation is based on Fall 2017 counts.

Gender	FA 2013 (201420)	FA 2014 (201520)	FA 2015 (201620)	FA 2016 (201720)	FA 2017 (201820)	% of FA 2017

## Age Group

Enrolled student age group based on the student's age at the time of admission. Mean Age is obtained by computing the arithmetic average of all ages for ACC students' registered for the term. Median Age is the 50th percentile, obtained by creating a list of registered (for the term) students' ages in numerical order. The table below displays the count of registered students in each group; percentage calculation is based on Fall 2017 counts.

Age Group (in Years)	FA 2013 (201420)	FA 2014 (201520)	FA 2015 (201620)	FA 2016 (201720)	FA 2017 (201820)	% of FA 2017

Ethnicity is a self-reported data field on the admission application. In 2010, the Federal Government issued new guidelines on how to collect and report race and ethnicity which is often referred to as the 'IPEDS Ethnicities'; the counts below are calculated based on the IPEDS Ethnicities guideline. The table below displays the count of registered students in each category; percentage calculation is based on Fall 2017 counts.

## Residency

There are several types of residencies and residency exceptions; the calculations below represent the student residency, not tuition residency.

- **Non-Resident** - Students who have not provided valid documentation of residence in Colorado.
- **Resident** - Students who have provided valid documentation of residence in Colorado.
- **ASSET** - Colorado state law allowing eligible, undocumented students to receive in-state tuition at Colorado public higher education institutions.
- **WUE** - The Western Undergraduate Exchange (WUE) program may allow for a reduction in tuition for students who are residents of one of the participating western states and who do not intend to create domicile in Colorado or take online courses. Participating states include Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, Wyoming, and the Commonwealth of the Northern Mariana Islands.

## Instruction Method Distribution

Student course registration counts are used to calculate the instruction method distribution, which describes how students take their courses. The percentage is calculated based on Fall 2017 (201820) counts. “Online and In-person” includes students who have an online class and a traditional, hybrid, or self-paced class. “Other Combination” is any combination of the three methods of instruction – traditional, self-paced, or hybrid – or, self-paced only.
