

The Commercial Photography AAS Degree offers a solid foundation for students to start a career in a range of photography and imaging-related fields. The curriculum provides extensive training in digital and traditional photography, professional camera equipment, contemporary studio and location lighting techniques, portraiture, events and multimedia photographic production. Students learn image capture and manipulation, digital asset management and workflow, and digital printing, publishing and video. Students will also learn about the business and marketing aspects of commercial photography necessary to be successful. This program is balanced between the technical and the aesthetic skills necessary to make compelling images. There is a balance between traditional and digital image making and balance between the art and business of commercial photography. Electives and portfolio development courses allow students to focus their exploration on the specific kinds of photography they enjoy. An emphasis is placed on strong conceptual thinking and storytelling.

This is a skills-focused, highly intensive program for students serious about working in the photography industry. Taught by expert faculty who have first-hand experience working with top clients and agencies, students will emerge from the AAS Degree program prepared to compete in a range of photographic fields. Students will work with high-end industry standard equipment available for checkout. Don't take on tens of thousands of dollars in for-profit college student loan debt, when you can gain the excellent training and education you need for a fraction of the cost, right here at Arapahoe Community College!
