

The Interior Design Program at ACC has been educating Interior Design professionals since 1975, and is one of the oldest programs in the State of Colorado. This program enjoys an excellent reputation of quality education in the Colorado Interior Design community. Interior Designers play an important role in developing efficient, functional and aesthetically pleasing spaces in both residential and commercial interior environments. The Interior Design program at ACC prepares students for a career as a professional interior designer. Students learn to develop not only creative abilities and how to express them, but also the methods and processes needed to practice design ethically, responsibly and profitably.

NKBA Accreditation: The ACC Interior Design Program is accredited by the National Kitchen and Bath Association (NKBA) and was awarded the NKBA Award for Excellence in Education (2011-2012); one of only three schools nationally to receive this award.
