

Want to make a difference in a young child's life? Consider the field of Early Childhood Education. Research supports the importance of high quality, early childhood programs which impact children's development throughout their school years and on into adult life. One of the most important influences is the teacher.

Arapahoe Community College and the Early Childhood Education program faculty are committed to prepare professionals to work with young children, birth through age 8, in a variety of settings. The Early Childhood Infant/Toddler Supervisor Certificate will prepare students for early childhood teacher positions in early childhood care and education settings, with an emphasis on caring for infants and toddlers. Upon completion of these classes, you will have met academic requirements as an Early Childhood Teacher and an Infant Nursery Supervisor. In addition to the academic requirements, the Colorado Department of Human Services requires at least twelve months (1,820 hours) of verifiable work experience.

All Early Childhood and general education coursework must be completed with a grade of "C" or better.
