

The BAS degree in Emergency Service Administration offers a comprehensive program to prepare a new generation of leaders in the field of emergency services in both governmental agencies and private sectors. Students will obtain a well-rounded learning experience and training related to proactive strategic planning for disaster prevention and reduction. The curriculum blends theoretical perspectives with professional practice necessary to enhance resiliency for communities and leverage capabilities and resources to deal with emergency situations. Students will learn how to tackle crisis requiring multi-agency collaboration and coordination activities. Additionally, the curriculum provides the foundation and skills for professionals in emergency services to advance into a leadership position and practice a proactive leadership in unpredictable and catastrophic situations to minimize risk to responders and the public.

The program will be delivered online. The BAS program (a total of 120 credit hours) offers a flexible upper level 60-credit-hour degree designed specifically for students who have earned an associate degree from a regionally accredited institution in Criminal Justice, Emergency Management and Planning, Emergency Medical Services, Fire Science Technology, Homeland Security/Emergency Management, Law Enforcement, Paramedicine, Public Safety, Wildland Safety, or closely related degree.
