If you can fit it in your schedule, try taking a challenging class. If there are two courses that you can choose from, pick the more difficult one-the one you do no know as much about. That will be the course that will make you a stronger person. You will learn things you never thought you would learn. You will meet new people with a different perspective. You will become wiser and a more well-rounded individual. You will be surprised how information you never thought you would be able to use (or maybe thought you needed or wanted to use) will come in handy one day.

Thank you for your generosity!

Helping You Meet Your Academic and Professional Goals

We take pride in helping our students Do More by excelling both academically and professionally. In the month of November, we were happy to host the Writing Center for a writing workshop and were pleased to host Fastenal representatives at our ACC Parker Campus, to discuss internship and career opportunities with our students. Please be sure to check our Events Calendar and visit upcoming newsletters for a schedule of upcoming events and activities.

Colleges Visit our ACC Parker Campus

Our ACC community participated in a variety of campus events and activities in November.

Students met with admissions representatives from Regis University and Colorado Christian University to discuss admission and transfer options. From Nursing to MBA programs, representatives shared what they can bring to the table to help our students and ACC community Do More with current college credits and ACC Associate’s Degrees. Interested in transferring or pursuing advanced degrees? Be sure to visit with our Extension Campus Advisor Jaime Bachmeier to discuss your academic goals.
