Summer & Fall Registration is Now Open!

Wondering what your next steps are?

Advising Tip!

Want to know which classes you have remaining to earn your degree or certificate? Degree Check is a free tool that allows you to track your progress towards your goal and to make sure you’re taking the right classes without wasting time and money! If you’re unsure about your declared program, come see an academic advisor to discuss your degree and certificate choices to make sure you’re on your desired pathway for your career and academic goals. The “What if” tool allows you to select a different degree or certificate program to see how far along you’d be with the classes you’ve already completed. Video tutorials can be found by searching “Degreecheck” at Arapahoe.edu, clicking Advising, and scrolling to the bottom of the page. Here are some quick directions on accessing Degree Check:

1. Log in to MyACC
2. Click the Student tab
3. Click Degree Check under Degree Requirements
4. Your declared program will appear in the top right and as you scroll down, you’ll see a list of your degree or certificate requirements.
