

## 2017/18 CATALOG PUBLICATION e-CATALOG USER GUIDE

### Format and Navigation

The 2017/18 ACC Catalog has been updated with the following format changes:

- The **left-hand navigation panel** is now somewhat condensed. Options to search for additional information within each link in the left-hand navigation panel are found on the pages each link connects to. For example, when searching for Certificate programs, you will click on “Academic Programs” in the left-hand navigation panel and then scroll on that page to the “Certificate” section on the page.
- When scrolling down a page, there is now a **“Back to Top” arrow** at the bottom right side of the page. Clicking this arrow will return you to the top of the page for ease of navigation. (Note: the back to top arrow will not appear until you begin scrolling down the page.)
- **Helpful icons** have been added to the top of pages to enable:
  - Sharing to Social Media (Facebook and Twitter) 
  - Print-friendly pages  (Note: it is highly recommended that Print-Friendly pages are used when printing – this feature formats the page for ease of hard-copy reading.)
  - Catalog Help 
- **Links to courses that display in the same window.** (Note: if a “Close” link does not appear when viewing detailed course information on a page, please click the course link at the top of the window, and the box will close.)

## Accessing Degree/Program Information

It is important to note that in the previous e-Catalog, the left-hand navigation panel had arrows next to each major link with sub-links to additional information. This is changed in the 2017/18 e-Catalog, and the links to additional degree/program information, for example, are now contained within the pages.

Thus, to access information on the "Academic Programs" page regarding Colorado's Guaranteed Transfer Courses, for example, please scroll to the *bottom* of the Academic Programs page.

## Searching for Course Descriptions

The "Course Descriptions" link in the left-hand navigation panel of the e-Catalog links to a page with all course descriptions listed alphabetically by Type. Users may navigate through the pages as desired to find a course description; however, it is recommended that the new "**Course Filter**" option at the top of the page is used to quickly search/find specific course descriptions as needed. You may search there by:

- Course prefix
- Course code or number
- Course type
- Keyword or phrase in the course title or description
