GRANT FAQs

Targeted industries: advanced manufacturing, bioscience, aerospace, energy and natural resources, advanced technology, electronics, infrastructure engineering, and construction.

Does a company have to offer health benefits to employees in order to apply for either grant? For a Colorado First grant, no (if business has been operating for less than three years.), but for an Existing Industry grant, yes.

For Colorado First grants when can you count new hires?

New hires include those created in the previous 12 months from date of application and pertains to job growth, not replacements. CF trainees funded in round 1 may be trained in EI funded grants in ground 2.

Existing Industry trainees may not be counted in round 2.

Good verbiage for 'softer skills': Non-technical skills linked to support efficiency and productivity goals of one or more technical skills listed on requested Training Budget. 1 essential skill listed for a minimum of every 2 technical skills training requests.

WORKFORCE TRAINING PROGRAM

Your PARTNER for the

COLORADO FIRST & EXISTING INDUSTRY Grant Program

arapahoe.edu/workforce

PURPOSE

training funds

Colorado's job training programs invest in its labor force and incentivize business growth in Colorado by providing grants to companies that are locating or expanding in Colorado. By paying costs associated with job training, the programs increase transferable job skills that support both the company's competitiveness and enhance worker's resumes and long-term employment opportunities.

state grant

PROGRAM DESCRIPTION

Colorado First Customized Job Training program provides a maximum annual grant award of \$1,200 p/ FTE.

Existing Industry Customized Job Training program provides a maximum annual grant award of \$1,000 p/ FTE.

Funding is \$4.5 million.

The Colorado FIRST provides funds only to net new hires.

Existing Industry focuses on established Colorado companies

REQUIREMENTS & eligibility

Companies pay 40% of costs of grant-funded training. Grant-funded training must be customized.

OEDIT and CCCS representatives must conduct site visit.

Company minimum wage \$13/hour urban, \$10/hour rural.

Certain Federal or state mandated training not eligible.

Training must be for permanent, full-time, non-seasonal, non-retail employees eligible to work in the US.

Grants awarded on a competitive basis. Factors include: Customized job enhancing skills / Number of trainees / Community College training participation / advanced technology, electronics and infrastructure engineering among others.

Competitive training skills include: Lean manufacturing / Information technology such as SQL, HTML, JQuery / Advanced financial analysis / Quality management / Welding / 6 Sigma / Bioscience.

Non-competitive trainings skills include: New employee orientation / MS Office / Basic customer service / Time management.

FAQs about STATE GRANTS

Can a company apply for both grants at the same time? The recommendation is to only apply for one grant at a time. However, companies may apply to different grant types in a one year period. A company can be awarded a Colorado First grant every year if they hire additional new employees, whereas they can only be awarded an Existing Industry grant every third year.
